Leipziger Meteorologisches Kolloquium

Dr. Eftychia (Efi) Rousi
(Nature Communications)

“Publishing in Nature Journals and the editorial process behind the scenes”

In this presentation, I will talk about publishing in Nature Journals (what are the profiles and the criteria of the different journals, how to choose the best journal for your paper, what are the different content types etc) and what is happening behind the scenes with the editorial process, from the moment you submit a paper up to acceptance and publication. I will give insights on the editorial culture within the Nature portfolio and on how we make editorial decisions. I will also talk a bit more specifically about what topics we are handling in climate research, what we are interested in, current open calls for papers, etc.
